Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 33 to 36.

Black Friday and Cyber Monday promote mindless consumption, excessive packaging and shipping waste, especially with the rise of online shopping. The sales produce massive waste not

just from the unwanted single-use plastic and cardboard packaging, but also from the return of unwanted items. This mindset also ensures that the earth overshoot day keeps moving back.

This is especially true of the clothing industry, where much of the online returns are tossed into the landfill because the logistics and cost of putting the item back on the shelf are much too **complicated**. Britons throw away approximately 300,000 tonnes of clothes every year and many of them are only worn a handful of times.

The negative impact of Black Friday is also significant from non-recyclable, mostly plastic toys, to e-waste, to fast fashion that is only used for one season. In fact, in France, the government is considering **banning** Black Friday due to the impact on the planet and the promotion of unsustainable consumption habits.

Question 33. What is the passage mainly about?

- A. explains why Black Friday sales are bad for the environment
- B. describes shopping activities on Black Friday and Cyber Monday
- C. criticizes the unwanted single-use plastic and cardboard packaging
- D. concerns about the impact of non-recyclable products

Question 34. Which of the following of the negative impact of Black Friday is not mentioned in the passage?

- A. fast fashion
- B. plastic toys
- C. recyclable items
- D. e-waste

Question 35. The word “**banning**” in the third paragraph is **CLOSEST** in meaning to

- A. encouraging
- B. stopping
- C. allowing
- D. forbidding

Question 36. Which of the following statements is NOT TRUE according to the passage?

- A. Cardboard packaging contributes to produce massive waste.
- B. Britons don't throw away their clothes.
- C. Returning online items is really complicated.
- D. The French government is considering banning Black Friday.

- A. After an earthquake happens,
- B. Some people say animals can predict earthquakes.
- C. Earthquakes are not scattered anywhere
- D. It also depends on types of building, soil conditions and population.

How can scientists predict earthquakes? (37)_____ but happen in certain areas. They happen in places where pieces of the Earth's surface meet. For example, earthquakes often occur on the west-coast of North and South America, around the Mediterranean Sea, and along the Pacific coast of Asia.

Another way to predict earthquakes is to look for changes in the Earth's surface, like a sudden drop of water level in the ground. (38)_____. Before earthquakes people have seen chickens sitting in trees, fish jumping out of the water, snakes leaving their holes and other animals acting strangely.

(39)_____, people can die from lack of food, water, and medical supplies. The amount of destruction caused by an earthquake depends on where it happens, what time it happens, and how strong it is. (40)_____. Of the 6000 earthquakes on the Earth each year, only about fifteen cause great damage and many deaths.

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 29 to 32.

Black Friday and Cyber Monday promote mindless consumption, excessive packaging and shipping waste, especially with the rise of online shopping. The sales produce massive waste not just from the unwanted single-use plastic and cardboard packaging, but also from the return of unwanted items. This mindset also ensures that the earth overshoot day keeps moving back.

This is especially true of the clothing industry, where much of the online returns are tossed into the landfill because the logistics and cost of putting the item back on the shelf are much too **complicated**. Britons throw away approximately 300,000 tonnes of clothes every year and many of them are only worn a handful of times.

The negative impact of Black Friday is also significant from non-recyclable, mostly plastic toys, to e-waste, to fast fashion that is only used for one season. In fact, in France, the government is considering **banning** Black Friday due to the impact on the planet and the promotion of unsustainable consumption habits.

Question 29. What is the passage mainly about?

- A. explains why Black Friday sales are bad for the environment
- B. describes shopping activities on Black Friday and Cyber Monday
- C. criticizes the unwanted single-use plastic and cardboard packaging
- D. concerns about the impact of non-recyclable products

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.

Spoken by 68 million people in the world, Italian is the only official language of two countries (Italy and...can you guess the second one? The answer is at the end of this passage!) and one of the official languages of the European Union, the Vatican, and Switzerland.

As we have mentioned before, from a linguistic perspective Italian is a neo-Latin known as romance language, and its history is intertwined with poetry and literature. We owe to Dante Alighieri and his Divina Commedia - written in his native Florentine language - the standardisation of Italian, which soon became the commonly spoken language among educated people all over the not-yet-become country.

Despite its celebrity, Italian is not the only language spoken in Italy. The Italian state recognizes not less than 12 linguistic minorities, even though only three are actually in use in public schools in the areas of interest: French in the Villed'Aosta, German in the Bolzano province, and Slovenian in the Trieste province. In addition, Italy is the land of another great linguistic abundance: dialects. According to the UN, 29 dialects are spoken in the country, with the National Statistic Institute estimating that 14% of Italians only speak a local dialect, and another 32,2% alternatively use Italian and a dialect depending on context.

The mix of Italian and dialects is not only part of the daily lives of many Italians, but also influences a big part of Italian literature both of ancient and modern times. Some examples include Carlo Goldoni, Carlo Emilio Gadda or, more recently, Andrea Camilleri, author of the Commissario Montalbano saga.

And now, the solution to our riddle is... the little Republic of San Marino! Did you guess?

Question 25. _____ **Question 26.** _____ **Question 27.** _____ **Question 28.** _____

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 29 to 34.

Spoken by 68 million people in the world, Italian is the only official language of two countries (Italy and...can you guess the second one? The answer is at the end of this passage!) and one of the official languages of the European Union, the Vatican, and Switzerland.

As we have mentioned before, from a linguistic perspective Italian is a neo-Latin known as romance language, and its history is intertwined with poetry and literature. We owe to Dante Alighieri and his Divina Commedia - written in his native Florentine language - the standardisation of Italian, which soon became the commonly spoken language among educated people all over the not-yet-become country.

Despite its **celebrity**, Italian is not the only language spoken in Italy. The Italian state recognizes not less than 12 linguistic minorities, even though only three are actually in use in public schools in the areas of interest: French in the Vailed Aosta, German in the Bolzano province, and Slovenian in the Trieste province. In addition, Italy is the land of another great linguistic **abundance**: dialects. According to the UN, 29 dialects are spoken in the country, with the National Statistic Institute

estimating that 14% of Italians only speak a local dialect, and another 32,2% alternatively use Italian and a dialect depending on context.

The mix of Italian and dialects is not only part of the daily lives of many Italians, but also influences a big part of Italian literature both of ancient and modern times. Some examples include Carlo Goldoni, Carlo Emilio Gadda or, more recently, Andrea Camilleri, author of the Commissario Montalbano saga.

And now, the solution to our riddle is... the little Republic of San Marino! Did you guess?

The Italian state recognizes not less than 12 linguistic minorities, even though only three are actually in use in public schools in the areas of interest: French in the Villed'Aosta, German in the Bolzano province, and Slovenian in the Trieste province. In addition, Italy is the land of another great linguistic **abundance**: dialects. According to the UN, 29 dialects are spoken in the country, with the National Statistic Institute estimating that 14% of Italians only speak a local dialect, and another 32,2% alternatively use Italian and a dialect depending on context.

The mix of Italian and dialects is not only part of the daily lives of many Italians, but also influences a big part of Italian literature both of ancient and modern times. Some examples include Carlo Goldoni, Carlo Emilio Gadda or, more recently, Andrea Camilleri, author of the Commissario Montalbano saga.

And now, the solution to our riddle is... the little Republic of San Marino! Did you guess?
