Tape Script (Topic: City Life)

Hello, my name is Nam. I live in Ho Chi Minh City, one of the busiest cities in Vietnam.

Life here is fast and exciting. Every morning, the streets are full of motorbikes, cars, and people rushing to work or school. There are many tall buildings, shopping malls, and restaurants. You can find anything you need here — from local food to clothes from famous brands. In the evening, the city becomes even more beautiful with colorful lights and music from cafés and street performances. However, city life also has some problems. The air is sometimes polluted, and the traffic can be very noisy. Even so, I still love living here because there are many opportunities to study, work, and enjoy modern life.

Traffic jams and pollution are two big problems in the city. Traffic jams occur when there are too many cars on the roads, making it difficult for people to move around quickly. To solve this, cities can encourage people to use public transportation, like buses or trains, instead of driving their own cars. This would **reduce** the number of vehicles on the roads, easing traffic congestion. **Pollution** is another

issue in cities because there is too much dirty air from vehicles and factories. One solution for this problem is to plant more trees and create more green spaces in the city. Trees provide oxygen and clean the air. By increasing the number of trees, cities can improve air quality and make the environment healthier for everyone. In conclusion, we all need to work together to solve the problems of traffic and pollution. By using public transportation and starting green projects like planting trees, we can make our city environment more sustainable and enjoyable.
