Vietnam usually has a dozen storms every year from June through the end of November, and most of which occur in the Central and northern provinces. November 2nd, 1997, however, was an unexpected day when the major storm Linda raged in the South. Linda was the worst typhoon in Southern Vietnam over 100 years. Formed in the sea of the Philippines, Linda strengthened as it moved westward. Later, it struck extreme Southern Vietnam with winds of 100 kilometres an hour. Over 3000 people were reported lost and died. Ca Mau province, suffered a direct hit by the storm, had the most damage. Gusts and heavy rainfalls caused flooding, destroyed crops, damaged about 200,000 houses and left about 383,000 people homeless. Linda later struck Thailand, causing flash flooding and at least 164 deaths. The storm also affected Myanmar, Indonesia, Malaysia, and Cambodia to a lesser degree.

The Eiffel Tower is a very famous tower in Paris, France. It was named after the engineer who designed and built it, Alexander Eiffel. The tower was built in 1889.

Alexander Eiffel was asked to build the tower when France decided to have a big fair to exhibit its goods and wares. The tower was to be located in the middle of the fair as a special attraction. So, Eiffel designed the tower and soon began to build it, using iron beams and bolts. When the structure first started to take shape, the people of France did not like it. They thought it looked like a giant skeleton and was not attractive at all. However, when the tower was finally completed and lighted up at night, the people quickly changed their minds. It was an enchanting sight and looked like a tower made of lace.

The Eiffel Tower is sometimes considered one of the seven wonders of the modern world. It is 300 meters high and people can take an elevator all the way to the top. From the tower, they can get a marvelous view of the city and the River Seine which runs through it.

The Eiffel Tower is a very famous tower in Paris, France. It was named after the engineer who designed and built it, Alexander Eiffel. The tower was built in 1889.

Alexander Eiffel was asked to build the tower when France decided to have a big fair to exhibit its goods and wares. The tower was to be located in the middle of the fair as a special attraction. So, Eiffel designed the tower and soon began to build it, using iron beams and bolts. When the structure first started to take shape, the people of France did not like it. They thought it looked like a giant skeleton and was not attractive at all. However, when the tower was finally completed and lighted up at night, the people quickly changed their minds. It was an enchanting sight and looked like a tower made of lace.

The Eiffel Tower is sometimes considered one of the seven wonders of the modern world. It is 300 meters high and people can take an elevator all the way to the top. From the tower, they can get a marvelous view of the city and the River Seine which runs through it.
