FOCUS ON: Future Jobs

I'm Andy, and I'm in fifth grade at King's Bridge Primary School. This week, we learned about popular jobs in the future. I think many people will be astronauts. My teacher said some people won't live here on Earth in the future. Astronauts will teach those people how to live in space. I think it'll be really cool to be an astronaut! I also think many people will be engineers. There will be more people in the future, and we'll need engineers to make houses, roads, and bridges. Engineers will also make robots, and we'll use robots to do many cool things. I think the future will be great.
