

Unit 7

Jobs

Lesson 4.2

Objectives

By the end of this lesson, students will be able to review the target language and familiarize themselves with aspects of Canada, and practice reading comprehension.

Vocabulary: engineer, biologist, vet (veterinarian), astronaut, mechanic, chemist

Structure: What jobs will people do in the future?
I think many people will be engineers.

1. Read and circle **True** or **False**.

FOCUS ON: Future jobs

I'm Andy, and I'm in fifth grade at King's Bridge Primary School. This week, we learned about popular jobs in the future. I think many people will be astronauts. My teacher said some people won't live here on Earth in the future. Astronauts will teach those people how to live in space. I think it'll be really cool to be an astronaut! I also think many people will be engineers. There will be more people in the future, and we'll need engineers to make houses, roads, and bridges. Engineers will also make robots, and we'll use robots to do many cool things. I think the future will be great.

2. Look and listen

1. **Mary:** Dad, what jobs do you think people will do in the future?

Mr. Johnson: I think many people will be (1) dentists. 

2. **Mary:** Will (2) vets be a popular job in the future? 

Mr. Johnson: Hmm, yes.

Mary: Great! I'd like to do that job when I grow up.

Mr. Johnson: That's a good job.

3. **Mary:** My teacher also said robots will do the job of (3) drivers. That's sad. 
They won't have jobs.

Mr. Johnson: It's a bit sad. But we'll need more mechanics to fix the robots.

4. **Mary:** Oh, OK.

Mr. Johnson: What jobs do you think will be popular?

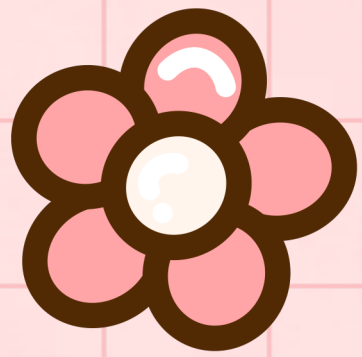

Mary: I think many people will be (4) biologists. 

Mr. Johnson: Why?

Mary: Because we still have many things to learn, and robots don't know them.

Mr. Johnson: I think you're right.
